Dear Educator,

Empowerment 360 is proud to announce The Magic In Me Motivational Tour.

Internal motivation and a sense of self are some of the missing ingredients needed to improve our children's performance in school and in everyday life. **Research shows that the greatest academic and overall impact can be made in the early years of an individual's life.** Young people in our society need strong, practical motivation if they are to realize their true potential. Dr.'s Montrell and Robie Greene created "The Magic In Me Series", three children's books, to help address the needs of children and the young at heart. As part of this release, Dr. Greene will be doing a motivational tour exposing children to this exciting book series. Please click on this link for more information [The Magic In Me Series Info.](#)

The Magic In Me Motivational Tour does two things. First, the tour provides a powerful motivational session that will internally motivate your elementary students to do their best all year long. Second, the tour will conduct a book signing of three children's books for your student body.

The Magic in Me Series is designed to internally motivate students and general readers to maximize their potential, no matter the background or circumstances. The authors believe that everyone is special and can achieve success. The titles of the books are: *Magical Me*, *Imagine Me*, and *Believing In Me*.

Please allow Dr. Greene to come into your district and motivate your student at the beginning of the school year. Call us today to schedule a time.
