

Empowerment 360

Professional Development Program

www.empowerment360.com

mgreene@empowerment360.com

Empowerment 360 offers general professional development to maximize student achievement.

Goals

Our goals are to:

- Improve student achievement
- Improve parental involvement
- Improve all schools' performance by:
 - *Transitioning under performing schools to successful performance
 - *Ensuring all schools meet annual yearly progress

Build working relationships between:

- *District and Schools
- *Administration and Staff
- *Staff Members

Approach

Our approach to Professional Development is tailored to fit the specific needs of the school or district. Collaborative efforts ensure the Professional Development program implemented is effective and builds the necessary capacity for ongoing success

The Optimal Classroom – Strengthens key elements in a classroom necessary to maximize student achievement

- Classroom Management
- Instructional Strategies
- Curriculum Management

Instructional Strategies for Success – Focused on maximizing student potential with effective, research based, strategic planning targeting beginner and master teachers

- Opening
- Relevance
- Teaching to Objective

Change Without Calamity – Designed to make changes and transitions amiable while creating school practices for success

TEAM – Together Everyone Achieves More – Teaches the fundamentals of identifying individual strengths and goals and how they relate to the success of the group and team

The Differential Difference – Working with teachers to develop teaching materials that allow all students to learn, regardless of differences in ability.

Special Education – Strengthening special education program based on the ideals that all students have special needs.

- Teaching To Include
- Break It Down
